| **Editor–in-Chief** | **Dr. S. Vijikumar**  
Director  
TamilNadu Scientific Research Organisation  
Arimalam – 622 201. Pudukkottai, Tamil Nadu, India. |
|----------------------|----------------------------------------------------------------------------------------------------------|
| **Editorial Committee** | **Honorable Chief Advisor**  
Prof. Dr. V. Ramaiyan  
Marine Biologist  
Research Advisor  
Sri Venkateswara College of Arts & Science, Peravoorani, Thanjavur, Tamil Nadu, India. |
| **Honorable Member** | **Dr. N. Jayabalai**  
Professor & Head, Dept. of plant Science, School of life Sciences  
Bharathidasan University, Tiruchirappalli, Tamil Nadu, India. |
| **Honorable Member** | **Dr. T.S. Saravanan**  
Professor of Biotechnology cum Research Co-ordinator  
Dr. M.G.R Educational and Research Institute University  
Periyar E.V.R High Road, Maduravoyal, Chennai 600095. |
| **Honorable Member** | **Dr. S.P. Subramaniyan**  
Asst. Controller of Patents and Designs (Govt. of India)  
Patent Office, IPR Building, GST Road, Guindy, Chennai 600032 |
| **Honorable Member** | **Er. Abdul Samad, M. Kamdod**  
Assistant Professor  
Department of Civil Engineering  
Bharat Institute of Science & Technology for Women  
Mangalpally, Renga Reddy Dist. Andhra Pradesh, India. |
| **Honorable Member** | **Dr. Hina kousar**  
Assistant Professor  
Department of Environmental Sciences, Kuvempu University  
Shankaraghatta, Shivamogga – 577 451, Karnataka, India. |
| **Honorable Member** | **Mr. B. Rajesh**  
Manager (Tech. Services Env.)  
Grass Roots Research & Creation India (P) Ltd  
Noida – 201301, Uttar Pradesh, India |
| **Honorable Member** | **Mr. K. Ramanathan**  
Head, Department of Bioinformatics, Thanthai Hans Roever College  
Perambalur, Tamil Nadu, India. |
| **Honorable Member** | **Dr. K. Gurunathan**  
Prof & Head, Department of Nano science & Technology  
Alagappa University, Karaikudi, Tamil Nadu, India. |
| **Honorable Member** | **Dr. Rajeshkumar O. Patil**  
Assistant Professor, Department of Environmental Management  
Sant Gadge Maharaj College of Commerce & Economics, Mumbai 400004, India |
| Honorable Member | Dr. M. Ravichandran  
Prof. & Head  
Department of Environmental Management  
Bharathidasan University, Tiruchirappalli, Tamil Nadu, India. |
|---|---|
| Honorable Member | Dr. M. Krishnan  
Prof. & Head  
Department of Environmental Biotechnology  
Bharathidasan University, Tiruchirappalli, Tamil Nadu, India |
| Honorable Member | Dr. K. Kumarasamy  
Prof. & Head  
Department of Geography  
Bharathidasan University, Tiruchirappalli, Tamil Nadu, India |
| Honorable Member | Mr. Mohammad Jawaid Alam  
Nature Club of India  
65/B, Zaakir Nagar, PC Colony, Kankarbah, Patna-800020, Bihar. |
| Honorable Member | Dr. G. G. Hammad Ahmad Shadab  
Senior Assistant Professor, Department of Zoology  
Aligarh Muslim University  
Aligarh-202002, Uttar Pradesh |
| Honorable Member | Dr. H. Syed Jahangir  
Assistant Professor, P.G. and Research Department of Botany  
Jamal Mohamed College (Autonomous)  
Trichirappalli-620020, Tamil Nadu, India. |
| Honorable Member | Dr. P. Santhanam  
Assistant Professor  
Department of Marine Science, School of Marine Sciences  
Bharathidasan University, Tiruchirappalli, Tamil Nadu, India |
| Honorable Member | Dr. B. Parimala Devi  
Additional Director  
Veeramani Mohana Centre for Quality Life Engineering Research  
Periyar Maniyammai University, Vallam, Thanjavur  
Tamil Nadu, India. |
| Honorable Member | Dr. M. Lekeshmanaswamy  
Associate Professor  
PG and Research Department of Zoology  
Kongunadu Arts and Science College  
G.N. Mills (PO), Coimbatore-641 029, Tamil Nadu, India. |
| Honorable Member | Dr. Syed Mohamed  
Asst. Prof. Dept. of Zoology  
Jamal Mohamed College  
Tiruchirappalli, Tamil Nadu, India |
| Honorable Member | Dr. Komalavalli Narayanaswamy  
Associate Professor, PG and Research Department of Botany  
H.H. The Rajah’s College (Autonomous)  
Pudukkottai – 622 001, Tamil Nadu, India. |
| Honorable Member | Mrs. Sujatha Ilangovan  
Assistant Professor, Department of Biochemistry  
Holy Cross College, Tiruchirapalli-620002, Tamil Nadu, India. |

Editorial

Dear Readers…

Agrobiodiversity is the result of natural selection processes and the careful selection and inventive developments of farmers, herders and fishers over millennia. Agrobiodiversity is a vital sub-set of biodiversity. Many people’s food and livelihood security depend on the sustained management of various biological resources that are important for food and agriculture. Thus, agrobiodiversity encompasses the variety and variability of animals, plants and micro-organisms that are necessary for sustaining key functions of the agro-ecosystem, including its structure and processes for, and in support of, food production and food security. Local knowledge and culture can therefore be considered as integral parts of agrobiodiversity, because it is the human activity of agriculture that shapes and conserves this biodiversity. Many farmers, especially those in environments where high-yield crop and livestock varieties do not prosper, rely on a wide range of crop and livestock types. This helps them maintain their livelihood in the face of pathogen infestation, uncertain rainfall and fluctuation in the price of cash crops, socio-political disruption and the unpredictable availability of agro-chemicals. More than 90 percent of crop varieties have disappeared from farmers’ fields; half of the breeds of many domestic animals have been lost. In fisheries, all the world’s 17 main fishing grounds are now being fished at or above their sustainable limits, with many fish populations effectively becoming extinct. Loss of forest cover, coastal wetlands, other ‘wild’ uncultivated areas, and the destruction of the aquatic environment exacerbate the genetic erosion of agrobiodiversity.

The main cause of the genetic erosion of crops - as reported by almost all countries - is the replacement of local varieties by improved or exotic varieties and species. In Burkina Faso, and throughout the West African Sahel, rural women carefully collect the fruit, leaves and roots of native plants such as the baobab tree (Adansonia digitata), red sorrel leaves (Hibiscus saddarifa), kapok leaves (Ceiba pentandra) and tigernut tubers (Cyperus esculentus L.) for use in the families’ diet. These supplement the agricultural grains (millet, sorghum) that provide only one part of the nutritional spectrum and may fail in any given year. Local knowledge and culture can therefore be considered as integral parts of agrobiodiversity, because it is the human activity of agriculture that shapes and conserves this biodiversity.

Naturally yours
